

Virtual urgent care

Here for your family, wherever you are

Emergency room

Common reasons for an emergency room visit include:

- Broken bone
- Concussion
- Difficulty breathing
- High fever
 - 100.3°F in infants younger than three months
 - 100.3°F for more than three days in all other children
- Severe asthma attack
- Severe cut/wound
- Severe dehydration
- Severe stomach pain, vomiting or diarrhea

Virtual urgent care

Common reasons for a virtual urgent care visit include:

- Allergies
- Asthma attack (minor)
- Burns (minor)
- Cold
- Cough
- Cuts (small/minor)
- Diarrhea
- Rash or minor skin infection
- Sore throat
- Sprains and strains
- Vomiting

Don't delay care.

- No appointment necessary
- Available daily, 3-11 p.m. daily
- Little to no wait time

Virtual urgent care is intended for minor illnesses and injuries. If your child has a life-threatening emergency, call 9-1-1 or go to the nearest emergency room.

Start a virtual urgent care visit through the VCU Health Anywhere app or by visiting chrichmond.org/urgent
